Continuation of 3. NOTE: The amendments recite sequence fragments not specifically examined in any previous Action. Entry of the amendments After Final would require new searches to determine whether the receptor sequences are novel or obvious variants with respect to the prior art.

Continuation of 11. does NOT place the application in condition for allowance because: Claims 5, 6, 8, 10, 15, 14 and 17-24 stand rejected under 35 USC § 112, first paragraph. Applicant's argument that the claims as amended are free of the basis for this rejection, detailed in the 26 January 2006 Final Action, is moot because the proposed amendments filed 29 June 2006 have not been entered for reasons explained above.

Claims 5, 6, 8, 10, 12, 15, 17 and 19-24 stand rejected under 35 USC § 102(e) as detailed in the 26 January 2006 Final Action. Applicant's argument that the '544 patent does not set forth, expressly or inherently, every element of the claims as amended is moot because the proposed amendments filed 29 June 2006, which Applicant argues obviate the ground for this rejection, have not been entered for reasons explained above..
